This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

INTRODUCTION

THIS edition of the General Catalogue is the thirty-second in the series. The first, a broadside in Latin, was published in 1799, followed at intervals of three years by successive editions in Latin until 1874. The first General Catalogue in English was published in 1880, followed by issues in 1885 and 1890. A lapse of ten years intervened before the succeeding volume appeared in 1900. A complete collection of these catalogues, excepting those of 1802 and 1805, is preserved in the College Library.

The original broadside catalogue of 1799 is reproduced in facsimile facing page 32.

The general arrangement in earlier issues has been retained. Two variations have been introduced. Small capitals have been employed for the entry of Graduates, the family name being placed first. The only exception to this is that the names of clergymen, always printed in italics, are entered in the same type as in previous editions. The index of Graduates has been arranged alphabetically under each family name instead of chronologically. These variations are intended to facilitate a more ready reference to the entries.

The abbreviations have been simplified as far as possible. The Master's degree, received in course, is entered without date. When conferred under the rule requiring an examination and thesis, the

Digitized by Google

date is given. When the degree is Honorary it is so noted in parenthesis.

In the list of Graduates the degree or degrees conferred by this College is entered immediately after the name. Degrees of other Colleges follow, arranged as nearly as possible in chronological order. The academic record including graduate study and positions held in this or other Colleges, in the army, navy, civil or diplomatic service is then entered. Membership of learned societies, as far as ascertained, is given.

Honorary graduates have the degree or degrees conferred by this College placed immediately after their names. The subsequent entry is arranged as for graduates.

Owing to the absence and illness of the Editor the responsibility for this edition has devolved largely upon Mr. John Adams Lowe, Library Assistant. The members of the Library staff have given loyal and untiring service in the work of preparation.

Corrections and additions to the entries in this volume are cordially requested. These should be sent to the College Library.
